PRESS RELEASE on the 2nd INTERNATIONAL CONFERENCE on **Brain Function Assessment in Learning**

Today, on Friday October 9, 2020, an important number of highly specialised and well-known academics and researchers from all over the world joined the **BFAL2020 International Conference**, held as a side event to the GENEDIS conference. BFAL2020 constitutes the 2nd Thematic Conference on the theme of "Brain Function Assessment in Learning", organised online under the auspices of the Institute of Intelligent Systems (IIS) and hosted by the University of West Attica, Greece.

The two-day event focuses on the convergence of cognitive studies, tools of artificial intelligence, neuroscience approaches and health applications in the context of a new era of multidisciplinary research tracks. It regroups research in multidisciplinary domains such as neuroscience, health, computer science, artificial intelligence, human-computer interaction, education and social interaction, highlighting the multiple applications of Brain Function Assessment in Learning-mainly in the Education and Health Fields -which become more and more promising and providing an open forum for the presentation of new achievements in the field together with an online space for research networking.

The conference benefits from a highly qualified Program Committee led by Professors Panayiotis Bamidis from Aristotle University, Claude Frasson from the University of Montreal and Panayiotis Vlamos from the Ionian University, as well as from a well-established Steering Committee consisted of renowned experts in the field. Well known academics such as Dr. Themis Exarchos, Dr. Anastasios Mikropoulos and Dr. Dimitrios Vlachakis honour the conference with their keynote speech contribution. A well experienced Organizing team from NEOANALYSIS company led by the Organisation Chair Dr. Kitty Panourgia contributed to the impeccable preparation and implementation of the conference. An important number of reviewers and program committee members collaborated for the synthesis of a special collection of high-quality research papers published by Springer in the LNSC Proceedings series. Participants enjoyed the lively presentations of this new research and actively joined the Q&A sessions. Tomorrow, Saturday, October 10, 2020, the Conference will go on from early in the morning until late in the afternoon. More information about BFAL2020 can be found on the Conference website: https://bfal2020.iis-international.org.
