

## **NATHALIE GUIN**

---

*Nathalie Guin*

Nathalie Guin is an Associate Professor in the Department of Computer Science at Université de Lyon (France). She is a member of the TWEAK group (Traces, Web, Education, Adaptation, Knowledge) in the LIRIS research center. Her research focuses on knowledge-based systems for Technology Enhanced Learning and specifically contributes to the acquisition of this knowledge. The meta-models proposed by her work contribute to the question of personalization of learning: learning analytics, learner modeling, generation of adapted activities, authoring tools.
