

DANIELLE S. MCNAMARA

Danielle S. McNamara

Danielle S. McNamara is a Professor of Psychology in the Psychology Department at Arizona State University and Director of the Science of Learning and Educational Technology (SoLET) laboratory. She has published over 500 scholarly works (books, journal articles, chapters, proceedings) on topics related to educational technologies (see adaptiveliteracy.com), game-based learning, reading comprehension, writing, text and learning analytics, and natural language processing (see soletlab.asu.edu). Dr. McNamara has served as an associate editor for five academic journals, and currently serves as the founding editor of APA's Technology, Mind, and Behavior ([/tmb.apaopen.org](http://tmb.apaopen.org)).
