

Christos Troussas

Christos Troussas

Dr. Christos Troussas is Assistant Professor in the Department of Informatics and Computer Engineering at the University of West Attica. He has been PostDoc Researcher in the field of Software Engineering at the same Department. He has received a PhD degree in Informatics, a MSc degree with specialization in “Intelligent Technologies of Human-Computer Interaction” and a BSc degree in Informatics from the Department of Informatics, University of Piraeus. He has participated in national and international research projects. He is Academic Editor of the journal “Advances in Human-Computer Interaction” (Hindawi). Also, he has been Editorial Board member of many other international journals, and Program Committee chair or member in many international conferences. He has published extensively in international journals, books and conference proceedings and is co-author of three monographs in the areas of personalized software engineering, augmented reality and artificial intelligence (by Springer and IOS Press).

His academic influence is indicated by thousands of citations of his work and by having received best paper awards in international conferences in the field of computer science. His current research interests are in the areas of personalized software technology, human-computer interaction and artificial intelligence. He is among the world's top 2% of scientists, according to the Stanford University ranking for the years 2020, 2021 and 2022 (Ioannidis, John P.A. (2023), “October 2023 data-update for "Updated science-wide author databases of standardized citation indicators”, Elsevier Data Repository, V6, doi: 10.17632/btchxktzyw.6). Additionally, he holds the position of Research Fellow at INTI International University, Malaysia.
