ANGELO SIFALERAS

Angelo Sifaleras

Angelo Sifaleras is a Professor at the University of Macedonia, Department of Applied Informatics, School of Information Sciences, Greece, Thessaloniki. He is a senior member of Association for Computing Machinery (ACM) and his research focuses on mathematical programming and network optimization. Currently, he serves as an Associate Editor for the Operations Research Forum by Springer and he also served as leading editor for several special issues of peer-reviewed journals (e.g., Optimization. A Journal of Mathematical Programming and Operations Research) and books (e.g., Springer LNCS). Prof. Sifaleras has been invited as a plenary speaker to several international conferences (e.g., ICVNS 2022, MSOTA 2020, MOTOR 2019, NET 2018, SYM-OP-IS 2017). He has published papers in well-known peer-reviewed journals (e.g., European Journal of Operational Research, Computers & Operations Research). Professor Sifaleras, was recently appointed as Program co-chair of the 15th Metaheuristics International Conference (MIC 2024) in Lorient, France, and the 20th International Conference on Intelligent Tutoring Systems (ITS 2024) in Thessaloniki, Greece. Also, he has been involved in European (H2020) and other national research projects. Additionally, he has served as external evaluator of various research proposals submitted to open grant competitions funded by the Russian Science Foundation and the EU Framework Program.
