Zachos Anthis

Zach is a Lecturer in AI and Data Analytics at Neapolis University Pafos. His PhD (with an integrated MSc in Quantitative Methods) from University College London was supported by a Full Doctoral Scholarship from the Centre of Digital Innovation (powered by Amazon) and an ERA Chair Fellowship from the European Commission. His research integrates mathematical modelling, data science, machine learning, and human–computer interaction.

He is a Teaching Fellow at the UCL Knowledge Lab and Visiting Lecturer at the University of Miami's Herbert Business School, and formerly served as Director of Education for the Chamber of Commerce and Industry (CCCI).
