

Filippo Sciarrone

Filippo Sciarrone obtained a Ph.D. on the use of personalisation techniques and methods in the field of learning, with a focus on the application of artificial intelligence to education. Currently, Filippo Sciarrone is an Associate Professor at Universitas Mercatorum in Rome, Italy, where he is teaching several courses in computer science. His research interests mainly concern Technology Enhanced Learning, and in particular the application of Generative Artificial Intelligence techniques and methods to the educational field.

He has led several research laboratories of companies for the production of algorithms and innovative systems for human resource management and for teaching-oriented recommendation systems. Currently he manages a research group on the use of generative AI to the construction of intelligent conversational agents for students with Specific Learning Disorders. He is the author of more than two hundred publications in the field of artificial intelligence applied to education.
